

Participant list
Agri-food policy analysis workshop
Jan 11-12, 2024

Mr. Bates Bathan

Department of Agricultural and Applied Economics, College of Economics and Management,
University of Philippines at Los Banos and Ph.D. student Department of Agricultural and Resource
Economics, Faculty of Economics, Kasetsart University

Philippines

(batesmarana.b@ku.th)

Bates M. Bathan serves as an Assistant Professor in the Department of Agricultural and Applied Economics at the College of Economics and Management (CEM), University of the Philippines Los Baños (UPLB). He was awarded the Best Teacher Award, Junior Faculty Category, in 2016, and the Outstanding Teacher Award, Senior Faculty Category, in 2020 by the CEM-UPLB. He graduated cum laude with a bachelor's degree in Agricultural Economics, majoring in Agricultural Marketing and Prices, in 2008. Later, in 2017, he obtained his master's degree in Agricultural Economics, focusing on Agricultural Finance, from the same university. Presently, he is pursuing his Ph.D. in Agricultural and Resource Economics at Kasetsart University's Department of Agricultural and Resource Economics, Faculty of Economics, under the German Academic Exchange Service (DAAD)-Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA) In-Region Scholarship Program. His academic, research, and public service contributions encompass the publication of 11 journal articles, presentations of over 25 research papers, authorship of one training manual, five monographs, and eight technical/research bulletins. Moreover, he has actively engaged as a lecturer, trainer, facilitator, or evaluator in more than 25 extension activities.

Dr. Sayvisene Boulom

Head of Food Science and Technology of Laos, ASEAN Sub-committee Food Science and Technology
& Faculty of Agriculture, National University of Laos

Laos PDR

sayvisene.b@nuol.edu.la

Sayvisene Boulom is a PhD student at the Athena Institute of the Vrije Universiteit Amsterdam (VU). He graduated Master degree on applied sciences (Food Chemistry) from Auckland University of Technology, New Zealand. He started his career on agriculture development, food science and technology at National University of Laos and has been working on multi-disciplinary research. His interests are food safety management system (PGS, GI, organic, GAP, GMP, and HACCP) for safety and quality in food value chain. Additionally, he has been working on public private community partnership policy and agricultural extension that agricultural sustainability, agribusiness/contract farming and then climate smart agriculture (CSA) have been applied for cassava, tea, coffee, vegetable, rice sectors and livestock. Currently, agroecological and safe food system are our targeted.

Dr. Mark Buda
Department of Agribusiness and Bioresource Economics
Faculty of Agriculture, Universiti Putra Malaysia
Malaysia
(markbuda@upm.edu.my)

Mark Buda graduated as BSc (Agribusiness) from UPM in 2008. After a short employment at Sime Darby Plantation, he joined as a tutor at the Department of Agribusiness and Information Technology (now the Department of Agribusiness and Bioresource Economics), UPM, followed by a MSc (Agricultural Economics) from UPM in 2013. From 2014 until 2018, he went to Oklahoma State University (OKSTATE) where he received a PhD in the field of Agricultural Economics. Both of his MSc and PhD theses were related to livestock economics and policy simulation. Since 2018, Mark Buda is working in academia, currently as Senior Lecturer at the Department of Agribusiness and Bioresource Economics, UPM. His teaching activities are mainly directed at agricultural economics and agribusiness in BSc, MSc and PhD courses. His research activities are focused on farm managerial economics and project management. He has developed an interest in livestock and aquaculture economics (especially production) and the use of technology there-in.

Ms. Monica Castillo
Science Research Specialist, Policy Advocacy and Information Management Unit
The Socio-economics. Research Division (SERD), DOST-PCAARRD
Philippines
(m.castillo@pcaarrd.dost.gov.ph)

Ms. Monica B. Castillo currently holds the position of Science Research Specialist II at the Policy Analysis and Information Management Unit (PAIMU), Socio-Economics Research Division (SERD) of the Philippine Council for Agriculture, Aquatic and Natural Resources Research and Development (DOST-PCAARRD). She serves as the Lead Technical Staff for PAIMU and as a Project Manager for various policy analysis and advocacy projects, particularly in advancing the advocacy for financial management reforms (FMR) and harmonizing the R&D programs and projects focused on the development of an inventory system for bamboo. Ms. Castillo has also co-authored two (2) important publications - the Integrated Approach to Impact Assessment: A Simplified Guidelines for DOST, and the Guidance for Identifying and Developing Policy Outputs under the DOST 6Ps Framework, and has produced several policy briefers and presentations. In her early years at DOST-PCAARRD, she provided significant assistance in crafting DOST-PCAARRD's stance on various policy/position papers and represented the organization in public hearings and policy deliberations. Ms. Castillo graduated with honors (cum laude) with a Bachelor of Science in Economics from the University of the Philippines Los Baños.

Mr. Khan Donira
Research Associate, Cambodia Development Resource Institute (CDRI)
Cambodia
(donira.khan@cdri.org.kh)

Khan Donira is a research associate at the Cambodia Development Resource Institute (CDRI), where he works on natural resource and environmental issues. He holds a double master's degree in Agricultural and Resource Economics from Kasetsart University in Thailand and Market, Organization, Quality, Service and Policy in Southern Agriculture from Montpellier in France.

Assistant Professor Uchook Duangbootsee
Department of Agricultural and Resource Economics, Faculty of Economics, Kasetsart University
Thailand
(uchook.d@ku.th)

Uchook Duangbootsee is the Chair of Master Programs and Deputy Head for Quality Assurance Affairs in the Department of Agricultural and Resource Economics (ARE). His research primarily revolves around rural development, agricultural economics, and poverty dynamics. He holds a Bachelor's degree in Quantitative Economics from the University of Toronto and a Master's degree in Policy Economics from the University of Illinois at Urbana-Champaign. In 2017, he earned his PhD in Agricultural Economics from Michigan State University, where his dissertation focused on the analysis of Thai rice policy.

Mr. Christian Paul Lantican Fang
Department of Agricultural and Applied Economics, College of Economics and Management,
University of Philippines at Los Banos
Philippines
(clfang@up.edu.ph)

Mr. Christian Paul L. Fang is an Assistant Professor at the Department of Agricultural and Applied Economics, College of Economics and Management, University of the Philippines Los Baños (UPLB). His teaching and research involvements focus on rural finance and cooperatives, farm business accounting, farm management, value chain analysis, and impact assessment/evaluation of projects. He also served as an Editorial Assistant for the Journal of Economics, Management & Agricultural Development (JEMAD). Mr. Fang earned his Bachelor of Science in Agricultural Economics (*cum laude*) degree from UPLB and his Master of Science in Finance degree from the University of the Philippines Diliman.

Dr. Abdul Muis Hasibuan
Researcher, Center for Behavioral and Circular Economics
National Research and Innovation Agency/BRIN
Indonesia
(abdul.muis.hasibuan@brin.go.id)

Abdul Muis Hasibuan is a researcher at the Research Center for Behavioral and Circular Economics, a division of the National Research and Innovation Agency in Jakarta, Indonesia. With a career spanning several years, he has made significant contributions to agricultural research in Indonesia, holding various positions in esteemed research institutions, including his role as a Researcher and Deputy Director at the Indonesian Center for Estate Crops Research and Development. Before that, he served as a Young Researcher at the Indonesian Industrial and Beverage Crops Research Institute and began his research journey as a Junior Researcher at the Indonesian Spices and Industrial Crops Research Institute. Muis's research interests encompass a wide range of critical agricultural topics, including agricultural technology adoption, farmers' behavior in climate change adaptation and mitigation, agricultural policy, and risk behavior. His work has been recognized and published in reputable journals, demonstrating his dedication to addressing the challenges faced by small-scale farmers and advancing sustainable agricultural practices. Driven by a strong commitment to advancing agricultural knowledge, his academic background includes a Ph.D. in Global Food and Resources from the University of Adelaide, Australia, a Master of Science in Agribusiness from Bogor Agricultural University, and a Bachelor of Science in Agribusiness from the same institution.

Ms. Sasiphen Hathaichoti
Policy Developer, Department of Innovation Economic Policy
Directorate of Science, Technology, Innovation (STI) and Education Ecosystem for Uplifting Wealth of
Nation, Office of National Higher Education Science Research and Innovation Policy Council (NXPO)
Thailand
(sasiphen@nxpo.or.th)

Sasiphen Hathaichoti is a Policy Developer at the Office of National Higher Education Science Research and Innovation Policy Council, Thailand. She works on science, technology, research, and innovation (STRI) policy focusing on the areas of biotechnology, synthetic biology, future food, and medical devices. Dr. Sahara
Director, International Trade Analysis and Policy Studies, IPB University
Indonesia
(sahara@apps.ipb.ac.id)

Dr. Sahara is now the Director Executive at International Trade Analysis and Policy Study, a research institution at the Faculty of Economics (FEM) and Management-IPB University. Until now, She has held the title of adjunct associate professor at Adelaide University. Sahara has wide experience in conducting research funded by national and international organizations (e.g., ACIAR, DFAT, JICA World Bank, ARNeT) in the area of agri-food value chains, agri-food digital market, contract farming, and rural development for important agri-food commodities in Indonesia including staple food, horticulture, dairy, beef, and cattle sectors. While markets for agricultural products evolve (modern market including digital market reformation), Sahara has conducted several research focused on how to facilitate the adjustment of small farmers to a new Agri-food system, particularly agri-food digital e-commerce. Sahara also collaborated with several Institutions in Australia including ACIAR for the project 'Improving Milk Supply, Competitiveness and Livelihoods in Smallholder Dairy Chains in Indonesia' (ACIAR/2012/099); Deakin University for the project 'Indonesian Agrifood E-Commerce—Current Practices and Perceptions; and Queensland University for the project 'Digital Technology Options for Indonesia's and Australia's Beef and Cattle Sector'.

Asst Prof Thasanee Satimanon
School of Development Economics, National Institute of Development Administration
Thailand
(ttonganupong@gmail.com)

Dr. Thasanee Satimanon is a faculty in School of Development Economics, National Institute of Development Administration. She received her Ph.D. from Department of Agricultural, Food and Resource Economics, Michigan State University in 2013. Her research areas are inequality in agricultural sector, agribusiness, and food marketing, especially sustainable products. Currently, she is interested in policies relating to consumer behavior, nutrition, life span under ageing society, and agricultural water management.

Mr. Sim Sokcheng
Research Fellow, Director of Center for Policy Research in Agriculture and Rural Development
Cambodia
(simsokcheng@cdri.org.kh)

Mr. Sim Sokcheng is currently the Director and a Senior Research Fellow in the Center for policy research in agriculture and rural development of CDRI. He has joined CDRI since 2013. He has extensive experience in leading and managing various research projects and doing research on agriculture, economic development, impact evaluation, and particularly conducting large surveys. Mr. Sokcheng is a Ph.D. candidate and hold a master's degree in Economics majoring in Development Economics from Kobe University, Japan.

Dr. Pham Le Thong
Head of Department of Agricultural Economics, School of Economics
Can Tho University
(plthong@ctu.edu.vn)

Pham Le Thong is currently Associate Professor, Dean of Faculty of Agricultural Economics at the School of Economics, Can Tho University. He teaches microeconomics, econometrics and agricultural economics. His research interests relate to issues in Farm Household Economics, Production Economics and Applied Econometrics. He has published in international journals including Journal of Population Economics and Journal of Asian Business and Economic Studies. He received his doctorate from the University of Groningen, The Netherlands.

Dr. Sivalee Trakulvichean
Excellent Center of Waste Utilization and Management (ECoWaste)
Thailand
(sivalee.tra@gmail.com)

Dr. Sivalee Trakulvichean is currently a researcher at ECoWaste, a collaborative center between KMUTT and BIOTEC. Excellent Center of Waste Utilization and Management (ECoWaste) is a collaborative research center between Pilot Plant Development and Training Institute (PDTI), King Mongkut's University of Technology Thonburi (KMUTT), School of Bioresources and Technology (SBT), KMUTT, and National Center for Genetic Engineering and Biotechnology (BIOTEC), National Science and Technology Development Agency (NSTDA). Her expertise lies in the environmental and renewable energy sectors, with a specific emphasis on waste management and starch technology. Her research interests encompass food and agriculture policy, carbon footprint analysis of the cassava starch industry, and biogas production. Furthermore, Dr. Trakulvichean has actively participated in Systems Research: Food System of Thailand project in 2019, and Thailand Food System Development Project: Framing the Food System and Analyzing and Enhancing the Food System Component of 'Trade, Distribution, and Food Service' under the Research Plan: Policy Research for the Development of Thailand's Food System, funded by Agricultural Research Development Agency (Public Organization) in 2020.

Dr. Chanhphasouk Vidavong
Director of Trade Policy Research Division
Institute for Industry and Commerce, Ministry of Industry and Commerce
Laos PDR
(vchanhphasouk@yahoo.com)

Dr. Chanhphasouk Vidavong, Director of the Trade Policy Research Division at the Institute for Industry and Commerce in Lao PDR, has been with the institute since 2007. He has roles as a researcher, lecturer, trainer, and consultant, specializing in Economics, Marketing, E-commerce, and International Trade. His research delves into Industry and Trade policy, E-commerce, and the economic impact on business, including minimum wage effects. He's explored Laos's Export Potential and the role of Global Value Chains in SMEs and Pro-Poor Development. Dr. Vidavong has collaborated with JETRO, the ASEAN-Japan Center, and contributed to the National Consultants Report on NSW and Digital Data Governance in Lao PDR. He holds a Ph.D. from Nagoya University, a Master's from Hiroshima University, and a Bachelor's from the National University of Laos, all in Economics.

Associate professor Piya Wongpit
Faculty of Economic and Business Management, National University of Laos
Laos PDR
(p.wongpit@nuol.edu.la)
